

MATRIX CL

Clearfield® Hybrid Oilseed Rape

 CL	 4PNN	 RLM7+	 Vv	 TuYV	 %	 45 DAYS	
A Clearfield® Variety	A Quad Layered PNN Variety	RLM7+ Disease Resistance	Verticillium wilt Tolerance	Turnip Yellow Virus Resistance	Pod Shatter Resistance	Superior Primary Response	Suitable for Min-Till or No-Till

Status: AHDB Recommended List Trials 2026/27

MATRIX CL is the first Quad Layered Variety from DSV. It marks a huge step forward in breeding innovation, being the first variety to stack four complex traits together without compromising yield (TuYV Protection, RLM7 Resistance, Pod Shatter Resistance, and Clearfield® Technology).

MATRIX CL demonstrates a significant advance in Clearfield® winter oilseed rape varieties and addresses many of the shortcomings of previous varieties. MATRIX CL allows the grower to choose powerful post-emergence Clearfield® chemistry without facing the potential drop in performance shown in the previous generations of varieties. MATRIX CL has left the pack, significantly raising the bar for Clearfield® varieties, making it one of the highest yielding Clearfield® varieties available to the UK growers. MATRIX CL is one of a few varieties to be UK recommended, making it suitable for growing in both the North, and East and West regions.

MATRIX CL is one of the first commercially available UK varieties in the Clearfield® segment to offer TuYV protection. This powerful yield enhancing trait possessed by all the current highest-yielding recommended varieties is an essential trait for growing OSR in the UK. Matrix CL has the highest untreated yield of all the Clearfield varieties. It is the biggest-selling Clearfield to date, being the most popular variety in this segment.

With the vigour pushing on from successful varieties like PLURAX CL and mirroring the vigour profiles of the top performing hybrids in both autumn and early spring, MATRIX CL performed particularly well in our high pressure flea beetle trials, where high vigour was a 'must'.

With Pod Shatter Resistance, RLM7+ resistance to stem canker, and added TuYV protection, MATRIX CL offers the best agronomic package seen in any Clearfield® variety to date. MATRIX CL offers the top standing scores with 8 for Lodging and 7 for Stem Stiffness. It has a medium Flowering score of 7 and an early Maturity score of 6. Offering a complete Clearfield® package. MATRIX CL is the first Clearfield® variety without compromise.

Gross Output	92% (UK) 92% (E/W) 92% (N)
Seed Yield	91% (UK) 91% (E/W) 91% (N)
Oil Content	46.2%
Winter Hardiness	High
Autumn Vigour	High
Spring Vigour	High
Plant Height	157cm
Flowering	7
Maturity	6
Lodging	[8]
Stem Stiffness	7
Light Leaf Spot	5
Stem Canker	6
