

# MATRIX CL

Clear ield® Hybrid Oilseed Rape

**Status:** AHDB Recommended List 2026/27

DSV MIRACULIX CL is DSV's latest Clearfield variety, joining Beatrix CL and Matrix CL on the list. It is a quad-layered variety from DSV. It marks a huge step forward in breeding by stacking four complex traits together (TuYV Protection, RLM7 Resistance, Pod Shatter Resistance and Clearfield® Technology). Alongside these four complex traits, DSV MIRACULIX CL has demonstrated a high and consistent yield 91% and oil content (45.1).

DSV MIRACULIX CL offers the top standing scores with 8 for Lodging and 8 for Stem Stiffness. It has a medium flowering score of 7, and its very early Maturity score of 6 puts it at the start of the pack. It's strong light leaf spot score 5 and essential RLM7 resistance to stem canker means this variety offers the complete Clearfield® package.

DSV MIRACULIX CL is one of the very few Clearfield varieties available in the UK to offer TuYV protection. This powerful yield-enhancing trait possessed by all the current highest-yielding recommended varieties is an essential trait for growing OSR in the UK.

DSV MIRACULIX CL demonstrates a significant advance in Clearfield® winter oilseed rape varieties and addresses many of the shortcomings of previous varieties. DSV MIRACULIX CL allows the grower to choose powerful post emergence Clearfield® chemistry without facing the potential drop in performance shown in the previous generations of varieties. DSV MIRACULIX CL has left the pack, significantly raising the bar for Clearfield® varieties.

With Pod Shatter Resistance, RLM7+ resistance to stem canker, and added TuYV protection and improved yield, DSV MIRACULIX CL offers one of the best agronomic packages seen in any Clearfield® variety to date.

Gross Output	92% (UK) 92% (E/W) 92% (N)
Seed Yield	91% (UK) 91% (E/W) 91% (N)
Oil Content	46.2%
Winter Hardiness	High
Autumn Vigour	High
Spring Vigour	High
Plant Height	157cm
Flowering	7
Maturity	6
Lodging	[8]
Stem Stiffness	8
Light Leaf Spot	5
Stem Canker	6
